INTRODUCTION.

In 1897 the town voted to raise \$550 for the purpose of printing its records of Births, Marriages and Deaths. The Town Clerk prepared the copy for the printer, which was a long and tedious work for which no compensation was paid. Albert H. Martin, Esq., has assisted the Clerk in preparing this copy very materially, for a very small compensation.

In 1863 a committee was appointed at the annual meeting to ascertain the condition of the town records and report thereon. Mr. Horatio Stockbridge was chairman of this committee, which reported that the births, deaths and marriages from 1778 to 1844 were in small books, with no title pages, and entries made there without order or system. The record of a birth that occurred in 1778 might be followed by a birth that occurred in 1815. The record of the report of this committee may be found in Book 3, Page 170 of the Town Records.

In consequence of the report of this committee, the records of births, marriages and deaths were copied and the originals lost or destroyed, probably. Your Clerk has made diligent inquiry for these original books, but has not found any person who has any recollection of ever seeing them; however, Franklin is very fortunate to have a copy of these original records. There are many towns in New England which have no records of these very important events, and now, after having this book printed, these records will be perpetuated.

The Clerk arranged these records in the order of their date, and has kept as near a copy of the records as space would permit; and whenever bad spelling appears in this book, the reader can

safely assume that it is the fault of the record and not of the printer.

I hope that the town will continue to make appropriations for the purpose of printing the records of the town meetings from the time of its incorporation to the time when the town began to print its annual reports, as these records contain the most accurate historical information that can be obtained.

This town was a part of Wrentham until 1778. Where a record is dated prior to 1778 the event took place when Franklin was a part of Wrentham, where another record of the same event may be found.

THE INDEX.

A separate index has been made for each division of the book, that is, for the Births, Marriages and Deaths, each one being complete in itself. Both the surnames and the christian names have been arranged in alphabetical order in each index. Many of the surnames have different methods of spelling, and not infrequently are incorrectly spelled: the plan adopted in the index in such cases has been to combine all the different methods of spelling the same name under the method standing first in the alphabetical order, with reference to this name when any of the other methods are reached in their proper order. To this rule there is but one exception in which the christian names are grouped under the second method of spelling the surname with a cross reference from the first method. Cases where no christian names are given are indexed under their surnames by a —— placed at the beginning of the christian names. In a great many instances the christian names have been incorrectly spelled: but in compiling the index, no liberties have been taken with the christian names and no assumptions have been made as to what they ought to be, as in the case of some of the surnames: on the contrary, they have been indexed strictly

as they appear upon the Records, without regard to what may be the correct spelling. The following are a few examples of this: What should be Jemima may appear as Mima, or Amelia may appear as Melia, or Sarah as Sally; Harriet may be spelled Hariet; what should be Louisa or Louise may, by a mistake in the Record, appear as Louis, or vice versa; Catherine and Katherine are indexed under C and K respectively; Francis and Frances are used indiscriminately for both males and females, and so in a few other instances. On page 163, line 2, is found the record of the death of an infant utterly destitute of any name, and having no parents named on the Record. This infant could not be indexed at all; but with this exception, it is thought that every name has been included in the index under some method of spelling.

Orsted A. Doe

TOWN CLERK.

CORRECTIONS.

- Page 18, line 3. Change Millie Heaton to *Mille* Heaton.
 Page 19, line 38. Change H. Cleveland Fisher to *H. Cleaveland* Fisher.
